

Figure 1

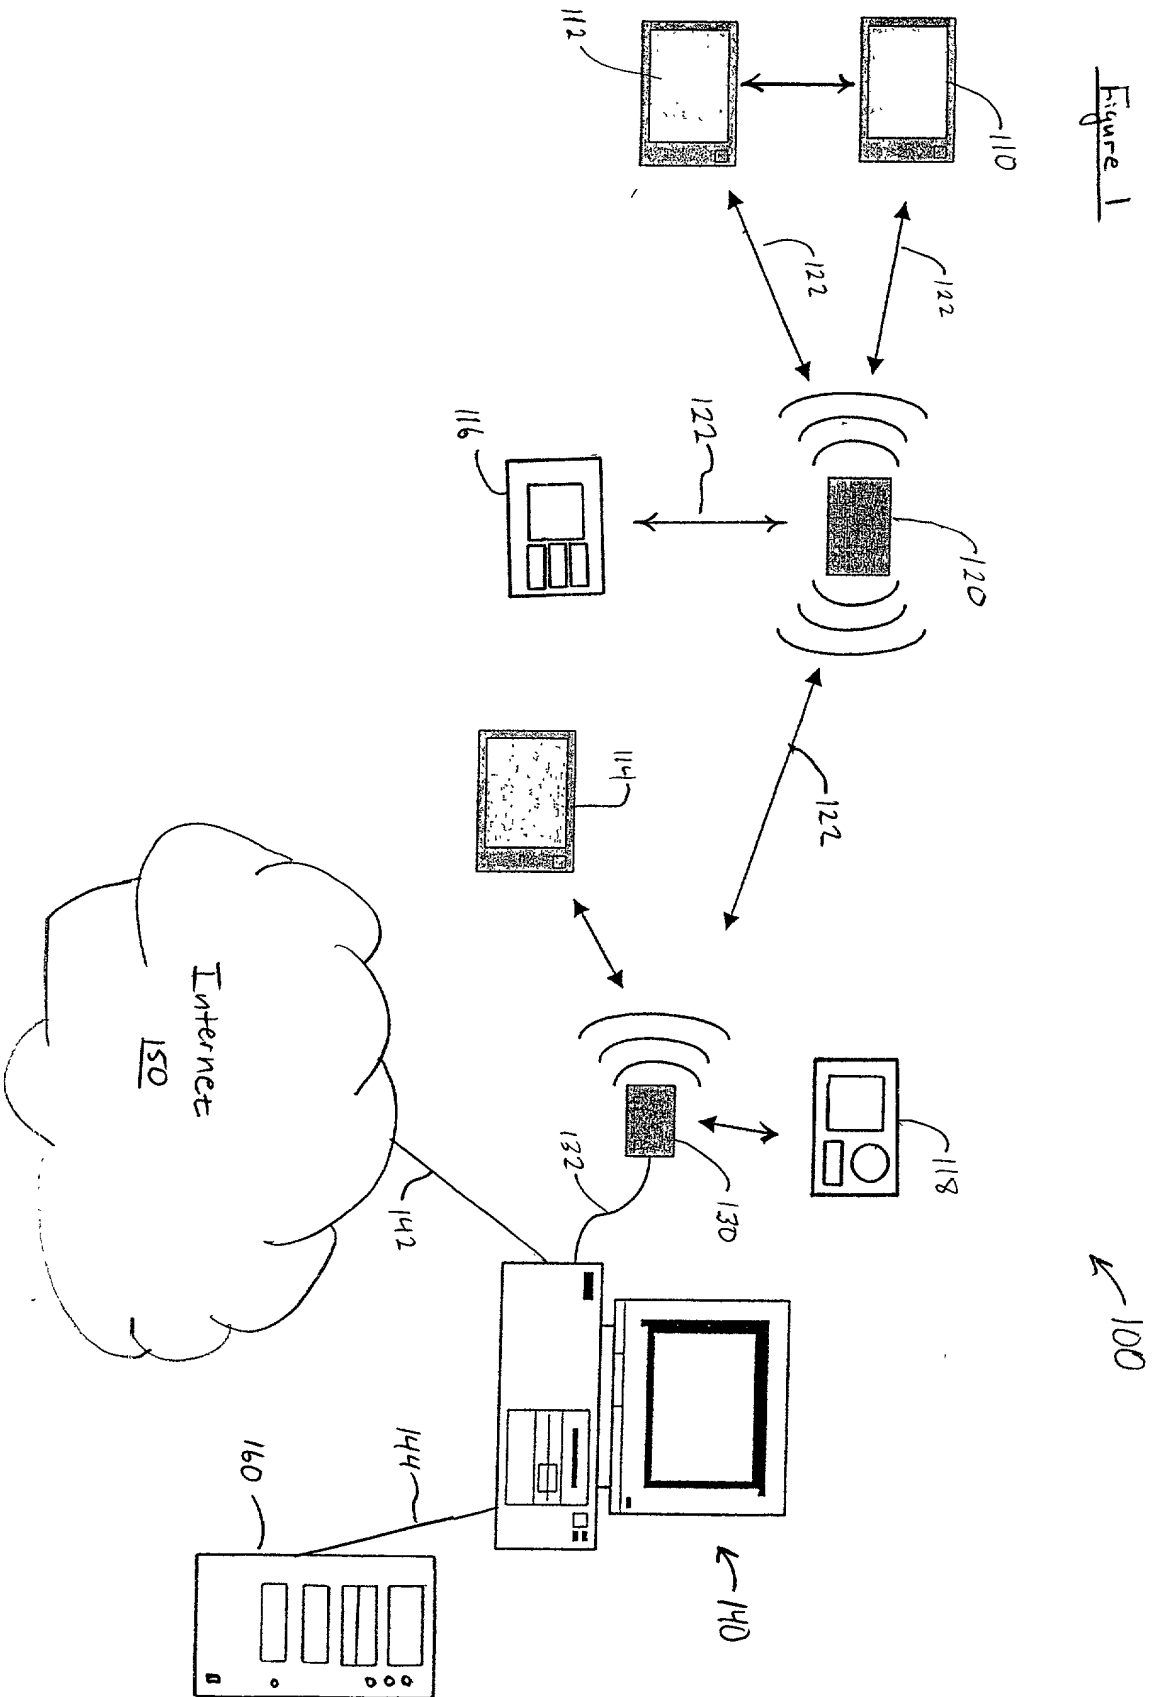

FIG. 1 is a block diagram of a network system 100. The network system 100 includes a central router 120, a server 160, a desktop computer 140, a laptop 114, a PDA 116, a mobile phone 110, a mobile phone 112, a wireless access point 130, and a monitor 118. The central router 120 is connected to the server 160, the desktop computer 140, the laptop 114, the PDA 116, the mobile phone 110, the mobile phone 112, the wireless access point 130, and the monitor 118. The central router 120 is also connected to the Internet 150 via a network interface 142. The desktop computer 140 is connected to the server 160 via a network interface 144. The wireless access point 130 is connected to the desktop computer 140 via a network interface 132. The monitor 118 is connected to the wireless access point 130 via a network interface 130.
